Red Cross Bazaar Netted \$338—Everybody Contributed Generously.

The Red Cross bazaar, held Friday afternoon and evening, Sept. 20, under the auspices of the local organization, proved a phenomenal success, far exceeding the expectations of even the most sanguine. The total receipts were \$338.04 and the net proceeds amounted to \$335, which, considering that there was a steady downpour of rain all the time, proves that the community is fired with a spirit of patriotism which no amount of water can quench.

People contributed very generously and there was a good display of farm products, both vegetable and animal, also fancywork, aprons, useful articles, parcel post packages and other things too numerous to mention. Some brought voluntary gifts of cash.

All the sale tables were liberally patronized during the afternoon and the remaining articles were sold at auction after the entertainment.

An excellent harvest supper was served, which was also well patronized and brought in over \$35, besides the sale of ice cream, which amounted to \$32.38. Money flowed freely and the people even bought tags to the amount of \$38, after paying more than market price for articles purchased. There was no evidence of hard times or tight money.

Owing to the rain, the parade could not be carried out in full, but the part exhibited was very good and showed much originality.

The speakers of the evening were Dr. Meade and C. F. Lowe of Montpelier, both of whom gave very interesting addresses, which were well received.

The committee is well pleased with the success of the affair and wishes to thank everybody for their liberal contributions and patronage and also the band and all others who in any way assisted in bringing about such gratifying results.

Remember that this is the week to search your attics and storerooms for worn clothing for the Belgians. H. C. Hollister will make a tour of the rural sections the last of the week to collect these articles, so kindly have them ready. Those living near are asked to send them in as early as possible. Keep thinking about it.

WAS SO NERVOUS THAT SHE CRIED

This Augusta Woman Tells How She Found Relief from An Extremely Nervous Condition.

Warlike with its excitement and hysteria is a trial to the strongest nerves. To those whose nervous systems are run down by overwork or worry, to those who are on the verge of neurasthenia, it is a time of danger.

There is no tonic for the nerves that is not a tonic for every other part of the body. There is no form of debility that does not rob the nerves of nourishment. The remedy therefore for nervous breakdown is a tonic that will build up the general health, revitalize the blood and enable it to carry to the nerves the elements that they need. Such a tonic helped Mrs. A. M. Beal, of No. 20 Allen street, Augusta, Me.

"I was so nervous that I cried," says Mrs. Beal, "and my stomach would feel as if it were trembling. When I would lie down I would have another spell. I had palpitation and fluttering of the heart and often had to give up work and sit or lie down. I had gas on my stomach and shudders during which black spots would appear before my eyes. I did not sleep well and felt worse in the morning than when I went to bed."

"About six months ago I tried Dr. Williams' Pink Pills and after taking two boxes I felt better, could sleep better and was not so nervous. I took eight boxes and I feel well now. I do not have the dizzy spells any more, my stomach does not bother me and I can do my work without stopping to rest. I will always recommend Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and neurasthenic patients should avoid alcoholic stimulants.

The Dr. Williams Medicine Co., Shewell, N. Y., has published a little book on nervous disorders that contains a chapter on neurasthenia in which the symptoms are fully described and the correct treatment given. The booklet is free on request.

Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.—Adv.

MONTPELIER

Ernest Williams, who has been agent for the American Express company in Laconia, N. H., since he was transferred from the cashier's job at the local station, has been appointed agent of the local office to take the place of W. E. Stockwell, who is to commence work in the National Life Insurance office.

Nothing developed out of the alleged robbery at Waterbury last Friday night. It appears that a car of merchandise was broken into and that it was not discovered until the car reached Waterbury. However, the car was at Montpelier Junction long enough for the job to have been done there. It also appears that the Boston seal on the car was broken some time after the car left White River Junction. Considerable stuff was taken.

R. W. Simonds, federal director of the U. S. employment service, E. E. Elder, national field organizer, and Mrs. Lee S. Tillotson, examiner in the Montpelier office of the federal director, were in Burlington attending the conference relative to the work in Vermont among the community labor boards.

The Washington county local board has commenced their classification of questionnaires. This can be done while they are waiting for the call numbers to be designated by the federal government. Many of the questionnaires are being returned to the offices. The medical advisory board has been assigned room 13 in the federal building and will have other rooms when they are necessary. These are the rooms which Chairman Gridley of the district board look over when Gov. Graham notified the district board it would have to move from the State House about Dec. 1.

An appeal from the commissioners has been taken in the estate of Asa L. Preston by Hiram Sparrow and entered in county court. It is relative to the claim of Mrs. Aubrey Nelson, who filed a claim against the estate for \$2,000. Mr. Sparrow filed a \$2,000 claim in offset, and both were disallowed by the commissioner.

Mr. Sparrow takes an appeal on the grounds that his claim should have been allowed and is a just claim. This case and the following ones have been entered in county court: Lois Wagner vs. Willie Wagner, divorce, on the grounds of intolerable severity; R. L. Clark vs. A. L. Churchill, to recover \$800, general assumpsit; Peck Bros. vs. L. A. Newcomb, general assumpsit; D. W. Lawson vs. Charles Vergani; Domica Sanguinetti vs. Manta Riccarelli.

It was announced last evening that Elmer Johnson, who has been executive secretary of the food administration here, has resigned and that his resignation has been accepted by F. H. A conference of the farmers' war council, E. L. Brigham presiding, with F. H. Brooks, food administrator, was held Tuesday afternoon in the mayor's office in Montpelier. Representatives of the farm bureaus, county agents, granges, farmers' associations and allied farm interests were represented at the conference, when Mr. Brooks explained to them the work that must be done in the coming months and discussed farm problems in the conservation and production of food. The principal feature of the meeting was the distribution of Vermont growth wheat. Mr. Brooks has held conferences with the bakers and millers and, having held the one Tuesday, will draft some plan by which he can work out a system to handle the problem.

Among those whose names appeared Tuesday in the list of soldiers who died at Camp Devens was Byron T. Page of Bradford, who went to the camp among the last contingents from Orange county. BROOKFIELD

The Destitute of Belgium and Northern France Need Your Spare Clothing.

Back of the German wall that has hemmed in Belgium and a part of northern France, 10,000,000 human beings look to us for clothing as well as food. We, who are well clothed, can hardly appreciate in what dire need these people are for lack of necessities. Stocks of clothing and raw materials are long since exhausted. There are no imports other than those the commission for relief in Belgium has been permitted to make, and these never have been sufficient. The world is now short of both clothing and raw material, so the commission can no longer purchase what is needed. But you can give it.

Every kind of garment, for all ages and both sexes, is urgently needed. In addition, piece goods—light, warm cotton flannel and other kinds of cloth from which to make garments for new-born babies, ticking, sheeting and blankets, woolen goods of any kind—and shoes of every size are asked for. Scrap leather is needed for repairing footwear.

Since the clothes will be subjected to the hardest kind of wear, only garments made of strong and durable materials should be sent. It is useless to offer to any afflicted population garments of flimsy material or gaudy coloring. Make the gifts practical.

Garments need not be in perfect condition. A hundred thousand destitute women in the occupied regions are eager to earn a small livelihood by repairing gift clothing and making new garments adapted to needs with which they are familiar. Anything containing rubber will not be sent. All rubber heels can easily be removed. The official week of this campaign is Sept. 23-30. Kindly leave all garments with Mrs. Isabelle Amidon.

His wife, returning from Woodville, left her car on the barn floor. Shortly afterwards Mr. Bailey, smelling smoke, commenced to investigate and discovered it coming from the auto, which burst into flames and the fire was promptly extinguished by the above mentioned machine. The car is out of commission, but the tragedy of 26 years ago was not repeated, which was the burning of a similar set of buildings on the same site.
